Equipment	(MB)	
	Mark E. proposed investigating option for MOBAR to rent necessary equipment from BigShark, in an effort to streamline logistics of maintaining MOBRA equipment (storage, inventory, insurance, replacement, etc.). Inventory to be presented to Board before more discussion is held. 10/14/2013 MW proposed January 2013 for tackling this. 11/11/2013: no update. 12/9/2013: spreadsheet circulated to board w/ equipment list. To be discussed at upcoming board meeting. 1/13/2014: Sean Thurman to create inventory. MB to contact Sean.	Open
	2/10/2014: MB reported back the three options: '(1) MOBRA owns and rents equipment to race directors. This is likely to be very expensive (>$5,000) and requires someone to handle the logistics. (2) MOBRA uses Big Shark as a go-between to rent equipment to race directors. MOBRA owns very little equipment anymore and a sizable investment in new equipment would be needed. (3) MOBRA doesn't do anything until we receive feedback from the 2014 race season. Proposed solution was to write-off MOBRA's existing equipment inventory and assess need for supporting promoters after the end of the 2014 season. Note: Big Shark has traditionally let other promoters borrow their equipment. It is expected that Big Shark will start charging for equipment. Rental rates will be below existing market rates.	Open
